

March 2010

## Ministry Newsletter

We are now into the third month of 2010 so I will briefly recap what has been going on since our last letter in October.

Most of you already know that Usama's beloved mom died just 2 days before Christmas. Her death was sudden and very hard on the family for that reason and because of the time of year that it took place. But, it was hardest of all on Usama's dad.

After 52 years of marriage Dad was heart sick as well as physically ill from a number of conditions he was being treated for. He was hospitalized but his condition worsened and he passed away on February 15.

Two deaths within two months have just been very devastating for our whole family. Many of Usama's family are still in Egypt and could not attend the funerals so they held memorial services in Egypt. Pastor Kamel Dakdok was very well known and respected in Egypt so he will be dearly missed by the number of people he ministered to in his 62 years of service to the Lord.

Usama and I are so very grateful for all the cards and notes from all our supporters around the country and world. Your prayers have been felt as we gain strength from our Lord.

~~~~~

We are looking ahead to the future of this year which includes asking God where he wants us to go in the United States. We would love to go back to the many churches we have served in the past as well as being open to new opportunities.

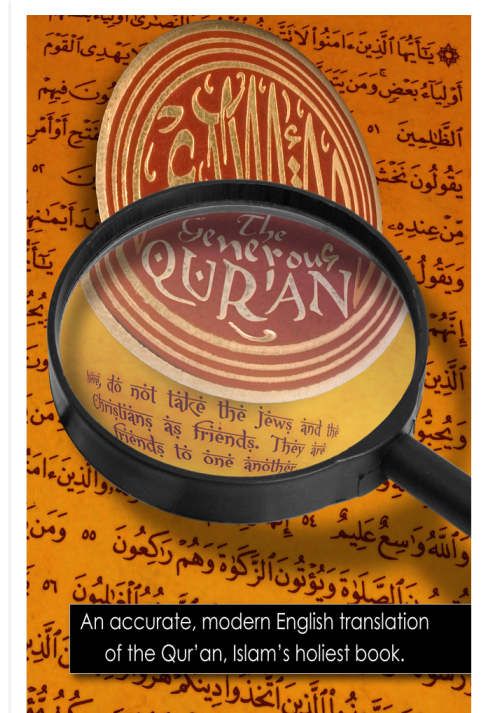

This is where all our readers can help us out. If we have been to your church in the past please ask your pastor to consider another visit this year. We have developed some very new material that we would love to share with you. Not to mention that we would enjoy seeing the friends we made last time we were with you.

For those of you who are new members to our news letter and we have never been to your area please introduce the ministry to your pastor, prayer group, or to a group of concerned people who would like to learn the truth about Islam. The best place for people to get acquainted with us and our ministry is by going to the website, [www.thestraightway.org](http://www.thestraightway.org) and searching what is there.

We are going to be in Texas for two week in March. We are thankful to our contacts there for bringing about opportunities of ministry in a new area for us. Our area coordinator for the Gulf Coast of Mississippi and

Louisiana has done a great job scheduling for us and we will be busy there for most of April. We have set aside the months of May and June for the Northwest with hope of a return visit to Washington and South Dakota. We will be in the midwest in September and October. If you can do anything to bring us to your area please contact us.

### News about the Qur'an

The Generous Qur'an can now be ordered easily from our website by clicking on the button under the picture like the one you see above. We also have them available at our speaking engagements.

## *Teaching from Usama*

### **Living in Fear or Political Correctness – What Do You Call It?**

As I write this article, my heart is stressed for I see destruction and people unaware of what is taking place. As we traveled from Louisiana to Texas for mile after mile and city after city, we passed by many churches. My wife asked, “How many of these churches know anything about Islam?” Since we have been in many churches all over the country, we know the answer from our experience. Hardly anyone knows what is happening in our country.

Even though the technology available today is amazing, with internet, television, radio, newspapers, and books, one may think that we have a better chance to be able to tell the truth to save America from the greatest enemy, Islam. Satan is smart. He allowed our leaders to dance with and to bow to our enemy. President George W. Bush danced with King Fahd (the Saudi ruler), and our Moslem President Barack Hussein Obama bowed down to King Abdullah (the new Saudi king, King Fahd’s brother). Both Bush and Obama are in 100 % agreement of their statements that the Saudis are our friends, Islam is a loving, peaceful religion, and the Qur’an is a loving, peaceful book. It is amazing how Moslems today can prove to Americans that Islam is a loving, peaceful religion by simply quoting the lies of Bush and Obama. Yet the Qur’an clearly teaches the opposite in 5:51, “O you who have believed, do not take the Jews and Nasara (Christians) as friends. The Qur’an also teaches in 47:35, “So do not be weak and do not call for peace when you have the upper hand.” How can we call the Saudis or any other Moslem county a friend or a peaceful people? Here one must ask a question. Why do our leaders lie? The simple answer is - political correctness. We choose to live in peace, but we will end with war. There are two ways to go to war. The best way is to go on the offense and fight the enemy on their land. It is much harder to go on the defense and fight the enemy on our own land.

I am very distressed at the media’s role in this strategic time because the media sides with the enemy and not for our own goodwill. Since September 11, not one media has written or spoken the truth about Islam. They never quote the verses of the Qur’an or the Hadith (Mohammed’s sayings), and there are over 350 verses which teach nothing but hatred toward Christians, Jews, atheists, agnostics, homosexuals, anyone and everyone who does not believe in Islam, in other words the West (America). Why is the media doing this? Once again, it is political correctness. How about Fox News, the conservative TV station? I dare anyone to show me any recorded show in the past or the future where Fox News has read such verses of hatred or the command of performing jihad on their screen – written or spoken out loud. Do you know why? The enemy is much smarter than we Americans. They bought Fox News and own more than 25% of Fox News. Wow!!! Some examples of observed changes at Fox News include experts on Islam such as Walad Shoebat, Brigitte Gabriel, Robert Spencer, and others who are critical of Islam and Islamic terrorism are now prohibited from appearing on Fox News. Fox News and Bill O’Reilly now legitimizes Ibrahim (Doug) Hooper, who heads the Council on American-Islamic Relations (CAIR) which is a paid lobbying and PR organization for the Saudis and a front for Islamic terrorists. For more details or information, click here -

<http://www.thestraightway.org/links.html> and then click on link **Fair and Balanced or Bought and Paid For?**

Maybe the last hope is the church for they are the real conservatives . They are willing to die for Jesus. Guess again. You are wrong. I have received one phone call after another from those are who are in high leadership roles in the church asking me to remove their endorsement of our ministry or the church's name or the church's telephone number. For every 100 Southern Baptist church (my denomination) that we called seeking opportunities to speak and to minister to the people and educate the body of Christ concerning Islam, only one or two churches open the door. Many of this 2% of pastors approach me and ask me to please not talk about Obama. In other words, they also seek a "political correctness" way of life. We Christians are no longer light and salt for we must be tolerant to please everybody.

What is political correctness? In my simple words, it is a foolish action of ignorant Americans who load their guns with their own bullets to shoot and kill their own children and grandchildren to please the Moslem enemy. I do not support the physical war in Muslim countries for I do not believe we are in a physical war with Muslims. I do not believe that war against Islam can be won with bullets. It can only be won when we get rid of fear which Americans call political correctness and have the freedom to speak and to teach the truth about Islam by simply reading the Qur'an and the Hadith and spread the truth about Mohammed and his followers throughout the media. For the Bible says in Hosea 4:6, "My people are destroyed for lack of knowledge; for you rejected knowledge, I will also reject thee." The problem in America is nothing but lack of knowledge.

Many Moslems are victims of Islam. We must obey Christ for He commands us to love our enemy, and we must share the gospel of Jesus Christ with them. How can we do that unless we, in love, expose their lies and lead them to the truth? If not, they will continue to grow in our land taking over every office, changing the laws from democracy to sharia (Islamic law). Then they will be fighting us here in our own land. A few years ago, I spoke in many churches. I said that Islam is growing in America because it is presented as a loving, peaceful religion, a religion with a high respect for females. I also warned the American people that the day will come and a new generation of Muslims would revert to the true Islam and practice what is written in the Qur'an. Then the great enemy of America will not be the Muslims from overseas but the children of the converted Muslim Americans. I do not know how much of my seminars were taken seriously, but what I have said has been proven to be true more and more every day although the media tries to hide it. As we know, just recently, two Muslim American ladies have been arrested for practicing Islamic jihad. What is amazing is that the media still hides the truth by lying to Americans and saying that these ladies are not true Muslims but just extremists. Do not forget what Allah said in the Qur'an 8:65, "O you prophet, provoke the believers to engage in war." Allah did not say to provoke the extremists but the believers. The question is once again - are we living in fear or political correctness? I call it cowardice.

## *What the future holds for the ministry as God holds the future*

In February Usama went to California and did a week of TV broadcasts and taping for an Arabic speaking Christian TV program. These programs reach countries all over the world. The exciting thing is that they want him to go there for a week every month to tape more programs in both Arabic and English. His idea is do a series based on the information in his new book which will reveal the errors in the Qur'an concerning the stories of the prophets as told by Mohammed.

We would love to see this same kind of program done on more English speaking Christian programs. If anyone out there has an idea of how this can be done please let us know.

Another opportunity that has opened up for Usama has been speaking at Tea Party groups and 912 Project groups. An exciting thing is that at one of these events 5 people gave their lives to the Lord after Usama spoke and a prayer was given at the end. The presentation that Usama has developed especially for this kind of setting is called "Freedom or Surrender" and speaks of how we are not simply losing our freedoms but that we are giving them away.
